ÜZEYİR GÜNAKIN

Software Developer

Batman, Türkiye | uzeyirgunakin.dev@gmail.com | uzeyirgunakin.com | github.com/02-fraw | linkedin.com/in/üzeyir-günakin

SUMMARY

Computer Engineering student and Software Developer focused on building reliable, maintainable software solutions using C#, ASP.NET Core MVC, Entity Framework Core, SQL Server, and modern interface fundamentals. Committed to turning ideas into functional, secure applications with clean architecture while continuously expanding across new software domains.

EXPERIENCE

Turuncuk Yazılım — Software Developer Intern **Summer 2025 · Remote**

- Completed a remote internship focused on ASP.NET Core MVC application development and core software workflows.
- Practiced MVC project structure, routing, controllers, views, models, form validation, and relational data flow using Visual Studio.
- Delivered practice-based development tasks independently while strengthening clean code and maintainable application structure.

FEATURED PROJECT

Personal Portfolio & Content Management System — uzeyirgunakin.com **Live Production**

ASP.NET Core MVC (.NET 10), Entity Framework Core, SQL Server, HTML5, CSS3, Bootstrap 5, JavaScript, Docker, Nginx

- Designed and deployed a bilingual (Turkish / English) portfolio platform with dynamic featured project slots, project detail galleries, and language-aware CV downloads.
- Built a custom Admin Area with Cookie Authentication, PBKDF2 password hashing, CRUD management for projects and contact messages, multi-image uploads, and database-driven technology tagging.
- Implemented production security (Anti-Forgery, rate limiting, honeypot, magic-byte file checks, security headers) and Linux deployment with Docker Compose and Nginx.

All projects and technical details can be explored at uzeyirgunakin.com and github.com/02-fraw.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, SQL

Backend: ASP.NET Core MVC (.NET 10), Entity Framework Core, Cookie Authentication, Model Validation

Frontend: HTML5, CSS3, Bootstrap 5, Responsive Web Design

Database: Microsoft SQL Server, Relational Database Design, CRUD Operations

Tools & Deployment: Visual Studio, Visual Studio Code, SSMS, Git, GitHub, Docker, Linux / Nginx

EDUCATION

Batman University — Bachelor's Degree in Computer Engineering **2023 – 2027 · Batman, Türkiye**

LANGUAGES & INTERESTS

Languages: Turkish (Native), English (Intermediate — B1)

Interests: Football & Sports, Cinema & Series, Reading, Technology Research
